

DESCENDER (RF) ELECTROL

DESCENDER ELECTROL

- Attractive and durable built-in solution. Building in a projection screen efficiently was never so easy.
- Closure formed by the slat bar ensures that ceiling mounting is inconspicuous.
- Easy Serviceability System: once installed, the motor and screen surface remain accessible making adjustments and carrying out maintenance possible. The bottom panel and case remain connected to each other.
- Easy to build into existing non-modular ceilings.
- The case and the projection screen surface can be made to exactly the right size and the visible components are available in any colour for optimal integration into any interior.
- Easy installation with optional wall and ceiling brackets, prewired for electrical installation.

DESCENDER RF ELECTROL

- Includes built-in radio frequency receiver, making it possible to operate the screen using the supplied remote control.

DESCENDER (RF) ELECTROL

- Install the screen case of the Descender (RF) Electrol separate from the screen surface during the rough-in stages of construction.
- Order the Screen Surface Assembly at a later stage and complete the installation during the finishing stage preventing any damage.
- The Screen Surface Assembly includes the bottom panel of the screen, motor and screen surface.
- The steel cables of the Projecta Easy Serviceability System easily connect the Screen Surface Assembly to the case ensuring a quick installation.
- Order the case first and decide the aspect ratio and screen surface at a later stage ensuring optimal flexibility.
